Bulletin Number 53

April 2022

2022 World Championships in Sweden.

I am pleased to tell you that our Swedish hosts for the World Championships later this year are well underway with their preparations. You will see from the following programme that there are some changes to what traditionally takes place, and the event has been scaled back to three days of practice / racing. This is necessary because of the escalating cost of organising the event, particularly the essential medical cover. Regrettably, without this reduction in competition time it would simply not be possible for Sweden to host our event. Having said that I can assure you we will have a fantastic World Championship and enjoy a great welcome and hospitality from our Swedish hosts.

The site will be open from the 31st August with racing on the 2nd, 3rd, and 4th September.

It will be of great assistance to our Swedish hosts if you will register with them as soon as possible on or after the 1st of May so that they can make all their necessary arrangements for us.

After such a long break from our World Championships I'm really looking forward to this next one ~ I hope you are too and look forward to meeting up with you there.

Kind regards,

Tony M Drake, JP. President ~ World Hovercraft Federation.
