Bulletin Number 46

March 2020

World Championships 2020 Flottsbro, Sweden.

As you know by now the World is suffering with a global COVID-19 virus epidemic which, if it lasts, may affect our World Hovercraft Championships in Sweden later this year.

The WHF's main priority in a situation like this is the health and wellbeing of everyone and in particular our competitors, race support, their families and friends.

It is too early to take any decisions about our World Championships but I would like to reassure you that we will be monitoring the situation very, very carefully in the coming weeks. Any decision is particularly difficult for us as we have to consider the health

countries and in particular Sweden where the event is being held. We are also very well aware that competitors from outside of Europe will have to make their travel plans at a much early stage from those within Europe.

At the moment we are assuming our World Championships will go ahead in Sweden in September as planned but if this changes we will tell you as soon as we can.

In the meantime we hope you and your families remain safe.

Kind regards,

Tony M. Drake JP. WHF President.
